Subject: Fujii will not make deadline for comments on P&N or Chaps due 9 Dec 2011 (work w/ Stephanie)

Hi Erin,

I am just not going to be able to review the P&N before the end of today (still finishing up my draft letter on the Klamath Facilities Removal). I will also be out next week (using up my earned CT prior to my retirement), and will not be able to review documents whose reviews are due on 9 Dec 2011.

I sent Stephanie my emails and files on the previous P&N issue. We briefly discussed the current version which appears to retain the caveat paragraph, previously OKed by Tom Hagler and I, that there is no guarantee of specific future amounts of water to be diverted via the BDCP canal. I suggested Stephanie check in with Tom to make sure he is still OK with the language, then talk to you.

Stephanie will be reviewing the first 4 chapters (mostly for context and educational purposes) and, if time, will take a quick look at the Induced Growth Chapter.

I will look at Chapters 1-4 on my return. We decided that ERO will focus our review on the following chapters, if time, workload, and the deadline dates allow. Both Stephanie and I should probably look at Chapters 4, 6, 9. We will determine who reviews what Resource Chapters when I return during the week of Dec 12th.

Chapter 6 Plan Implementation

Chapter 4 Covered Activities

Chapter 9 Alternatives to Take

Chapters 14 Ag, 21 Energy, 22 Air, 23 Noise, 29 Climate Change

Stephanie - Have I accurately captured our decisions?
